

BICYCLE RACK

Bicycle Rack Leo

Material

Hot-dip galvanized steel. Delivered uncoated or coated in any RAL colour.

Ground anchoring

Delivered with fixed foot plates at the ordered leg length or with loose foot plates for adjusting leg length on site (insert model) or for on-site casting.

Size

Single or double sided, with c/c dimensions 400, 500, 600 or 700mm between each rack. Can be angled at 45 degrees. Lengths can be adapted to the standard sections for our bicycle roofs. Can also be manufactured as desired.
